Screen System

somfy®

Designed for silence

Silence brings comfort and well-being.

Somfy
DESIGNED FOR
SILENCE

As the world leader, Somfy is committed to providing innovation that fulfills user expectations in residential and commercial buildings. With more than 150 million motors sold, Somfy continues to improve the sound quality of its motors to provide powerfully smooth and silent movement.

Somfy range and "Designed for Silence" label ensure a superior acoustic comfort for even the most demanding interior installations. Somfy has set a new market standard for ultra-quiet performance.

ULTRA QUIET...

INSIDE THE POWER OF SONESSE ULTRA

Somfy is designed to isolate noise sources and minimize vibrations.

Newly patented and improved spring brake eliminates stopping and tilting noise.

Patented helical gearbox ensures uniform sound quality in both up and down directions

Steel tube contains the motor to lower the vibration level. It is isolated from the external tube by elastomer suspensions to reduce the vibration transmission.
